### Acknowledgements

This is the second year that I have had the privilege to compile the Green Book. The assistance obtained from the Cooperative Extension Service this year has been expanded to a greater degree and has been invaluable.

Special recognition is extended to the fruit and vegetable producers who have been very supportive of the goals and objectives of this Directory as a marketing tool within the industry. A positive sign is the increased number of producers who have furnished vital information. I am very pleased to report that the Directory is now experiencing new and enlarged usage in both traditional and alternative marketing channels.

Commendation and merit are also extended to the clerical and design personnel who contributed to the successful completion of this years edition. They are: Gayle Cennami, Arlene Fleming and Mary Lou Nash - typists and Martha Huntington - cover drawing, Harris Barron - cover design.
